

Remarks

By the foregoing amendments, the specification has been amended to update the priority information upon entry of the present application into the U.S. National Phase; to insert the Abstract (containing the same text of the Abstract as filed in the International application that appears on the face page of the published International application) into the proper location for U.S. practice; and to replace the sequence listing as filed in the international application with a substitute sequence listing in proper format for U.S. practice; these amendments add no new matter. In accordance with 37 C.F.R. § 1.825, the computer readable and paper copies of the substitute sequence listing submitted herewith are the same and include no new matter.

By the foregoing amendments, claims 3-4, 6-9, 11-13, 17-32, 35-40, 42-46, 49, 51, 56 and 58-62 are cancelled without prejudice to or disclaimer of the subject matter therein. Claims 1, 5, 10, 14, 16, 33, 34, 41, 47, 48, 50, 52-55, 57 and 63 are sought to be amended. These amendments are sought to place the claims into better form for U.S. practice, do not introduce new matter, and are supported in the specification, for example, at original claims 1, 5, 10, 14, 16, 33, 34, 41, 47, 48, 50, 52-55, 57 and 63. New claim 64 is sought to be added. Support for new claim 64 can be found, for example, in original claim 34. These amendments to the claims add no new matter and their entry and consideration are respectfully requested. Upon entry of the foregoing amendments, claims 1, 2, 5, 10, 14-16, 33, 34, 41, 47-48, 50, 52-55, 57, 63 and 64 are pending in the application, with claim 1 being the sole independent claim.
